

## Corrigenda

Kunz H and Wu F Y 1978 *J. Phys. C; Solid St. Phys.* **11** L1-4

Equation (3) should read:

$$Z(q; v, L) = \sum_{\xi_i=1}^q \prod_i \{1 + v\delta(\{\xi_i\}) \exp[L\delta_x(\{\xi_i\})]\}$$

where

$$\begin{aligned} v &= e^K - 1, & e^{K+L} &= 1 + v e^L, \\ K &= J/kT, & L &= H/kT. \end{aligned}$$
